Palm Beach, Fla. 20th 1898

My dear jimmy.

I have just mailed
you a box of things. The biggest
yellow thing is a guava. what they
make the ~~g~~ guava jilly out of.
The next biggest thing yellow
with a little green on it is
a lime what they make lime
drops out of; the brown thing
which looks like those things
which grow at the place
just where we go in to our
garden in Milton is what they
called a sapadillo. The little
yellow things I have forgot
the name of. The shells are
they kind that are not common
The cloth stuff is coconut fibre

and the young coconut you
can tell for yourself. We
are all well. Tomorrow
morning at nine o'clock
we leave here on the Indian
River boat for Rockledge we
stay at Rockledge for 4 hours
or more and then take the
train for St Augustine
arrived there I heseday stay
there for 2 or 3 days at the
Alcazar then we are most
likely going th to Richmond
tho Washington New York
then Boston. Went in
bathing this morning and
butterflying and I saw
lots of lizards. All well.
and fine

With love from

George.

P.S. I forgot to say I mailed
you and Constance a
coconut.
